Our Venture

The “We’Ken” is a professional organization of experienced academicians and practitioners keenly interested in the application of knowledge and insights to the institutes and industry problems in an intellectual way. It is a group of visionaries from industry, academic and researcher having more than three decades of experience, presently rendering their services for ensuring academic excellence in renowned higher education institutes in India.

“We’Ken” is an advanced thought process to nurture beyond one's ability to interpret or make sense of the subject matter or task at hand.

“We’Ken” team belief reveals that the experts from academics, industries, corporate can attend to them with an intermediate ways on a mutual plan.

Our objective is to benefit all the niches of knowledge seeking people in a click. Because “We’Ken” believe that you only live once (YoLo) so why not explore our experience and insights to do things differently !

The “We’Ken” intellectual team shall supplement a unique program for the discovery and evolution of big scale events such as conferences in industries, academic and research institutes.

Our team will be involved in studying the trade name, identifying the target audience, devising the event concept, being after the logistics and coordinating the technical aspects before actually launching the event.
